

## USB Recording

### **For Intruder & Inspector Nick Models**

A 4Gb drive will hold approx. 4 hrs. of video.

Please note: Each time the record button is pressed a new record file is created.

Voice over narration can be done with a microphone. A self-powered USB hard disk can be plugged in place of a thumb drive to record up to 2 TB of Video!

The USB drive can be installed to the LCD at any time, with the unit on or off makes no difference.

- Insert the drive into the USB port on the display
- Wait up to 1 minute for Video line discovery green light blinks
- Both lights turn solid - the recorder is now ready to record, recording may start as long as both lights are solid
- Press RED button to record, RED record light should blink while recording
- Press Record button again to stop recording
- Video playback cannot be seen on the LCD, the USB drive must be read from another source. PLEASE VERIFY RECORDING BEFORE LEAVING JOB.
- An adapter is available to view the USB recording from your phone. (Not available on all phone models) Ask for details.
- A microphone may be used for Voice over recording.
- A good quality flash drive should be used.
- Flash drives must be formatted to FAT 32 (most are this format from factory)
